Subject: Tree removal

I do not object to the removal of the three trees mentioned in the Planning Board's motion at the public hearing on August 23, as the Tree Warden has good reasons for the removal of two of them that are not relevant to sight lines, and the third tree is apparently not a significant specimen.

However, especially in light of the discussion of the utility pole as the worst view-blocker, I wish to reiterate my objection the removal of significant trees for sight line purposes along the stretch of Pope Road that is upgradient to Brabrook Road.
